- None reported.

WEATHER OF CONCERN

Weather of Concern

- Precipitation will arrive tonight and will continue through the week for portions of Northern California mountainous and valley locations.

Active Weather Warnings, Watches and Advisories by County:

- <https://alerts-v2.weather.gov/counties/CA>

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

A high pressure ridge over the west coast will produce dry and warm weather throughout the North Ops region today. However, a closed low pressure area west of southern CA will move toward central CA today and push clouds into the region. The ridge will move east tonight and clouds and S-SW winds will increase over the region. A few mountain rain showers are possible tonight and Wednesday. Rain will increase over the region Wednesday night and continue into early Saturday. Snow levels will be 5000 ft in the north and 7000 ft in the south through Thursday, then drop to 4000-6000 ft Friday and 3000-5000 ft Friday evening. SE-SW winds will gust to 20-30 mph Thursday and 25-35 mph Friday. Late Saturday will be mostly dry, but another system will bring rain with high snow levels to northern areas Sunday into Monday and more wet weather will arrive during the middle of next week. Rainfall equivalent totals through early next week will range from near 0.50 inches in the driest inland valleys to 5 inches or more in the NW mountains. other mountain areas will receive between 2 and 5 inches.

SOUTHERN CALIFORNIA

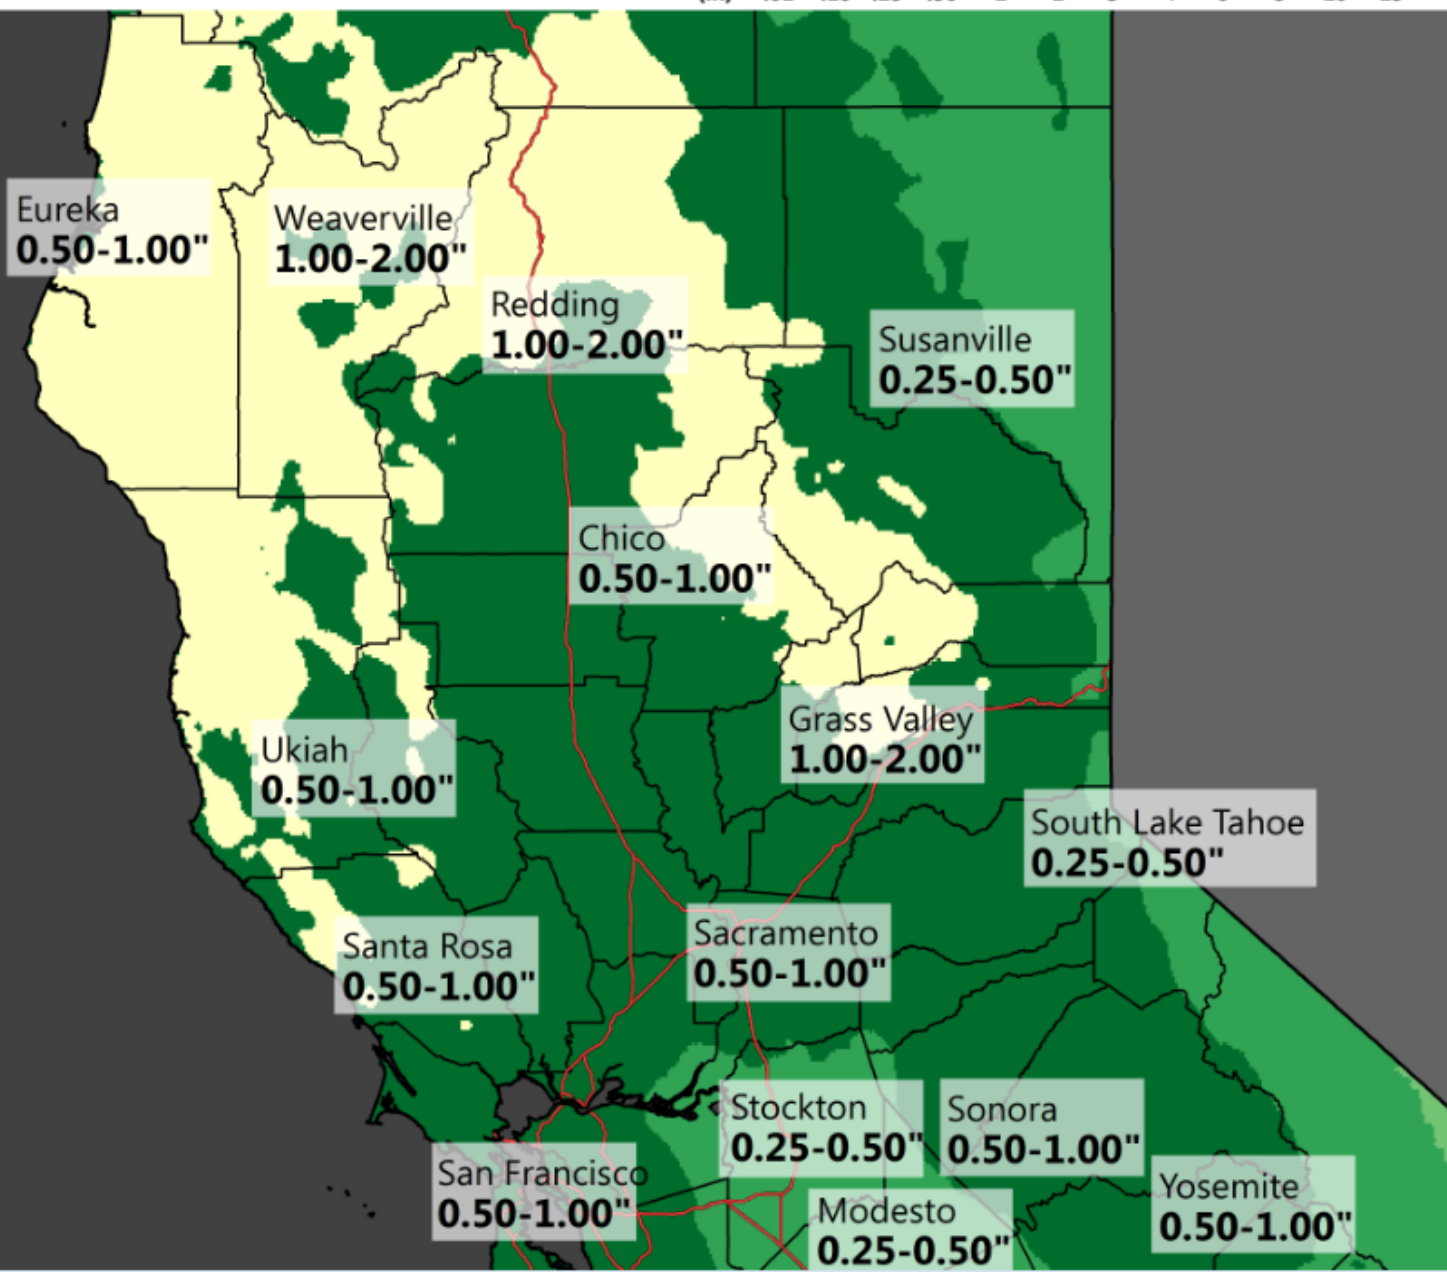

A strong ridge of high pressure over California will bring warm and dry conditions to the area today. Maximum temperatures will be 10 to 15 degrees above normal, with upper 50s and 60s across the mountains and 70s to low 80s in the valleys. Minimum humidity will be mainly in the teens. The ridge of high pressure will weaken bringing a few degrees of cooling both Wednesday and Thursday. Temperatures will be between 5 and 10 degrees above normal Thursday through this weekend as the region remains under a weak ridge of high pressure. Humidity will start to increase Wednesday and will be fairly high Wednesday night through this weekend. Abundant subtropical moisture will bring scattered light showers to Central California at times Wednesday evening through this weekend. Winds will be light through this weekend. A low pressure area may bring a better chance of some beneficial rainfall early next week.

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2018-LAW-44328, 1/1/2018 @ 1129 hours:** IERCC reported a Delorme In Reach activation at 37° 56' 29"N by 119° 13' 30"W, which plots to the area of Ellery Lake, above Lee Vining, Mono County. The registered owner reported that he is a wilderness guide and that a member of his party had suffered a climbing accident. The subject had been severely injured and required evacuation. Mono County was advised. Mono County dispatched a ground team and requested a CHP Helicopter to assist with the evacuation. The helicopter, with assistance from ground teams, was able to pick up the victim and transfer him to a medical helicopter for treatment/transport. **Mission Closed.**
- **2018-LAW-44338, 1/1/2018 @ 1525 hours:** IERCC Advised of an Delorme In Reach Activation at 34° 14' 44"N by 117° 45' 38"W, which plots to the area of Mt Baldy in LA County. No additional information was received from the device. The emergency contact reported that the device owner, and another subject, were on a day hike in the area. IERCC reported significant movement of the device along a trail. LA County Sheriff was contacted. A short time later the registered owner contacted IERCC to report that the activation was accidental. **Mission Closed.**
- **2018-LAW-44348, 1/1/2018 @ 1602 hours:** AFRCC reported a Personal Locator Beacon activation at 33° 34.7'N by 117° 44.8'N, which plots to small park in urban Aliso Viejo, Orange County. The registered owner reported that he sold the device more than a year ago and does not know who is using it now. Orange County Sheriff was contacted and asked to do a patrol check of the park. That was done with no indication of distress. **Mission Closed.**

Cal OES MISSION TASKING

Cal OES Missions

- **2017-Cal OES-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene).
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County.
- **2017-SOC-44022:** Two E-BAM (air monitors) from Air Resources Board/Office of Emergency Response to monitor smoke from the Thomas Fires. Location one: Olga Reed Elementary School (480 Centennial St., Los Alamos); Location two: Carpinteria City Hall (5775 Carpinteria Ave., Carpinteria) (On Scene).
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene).

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
